Bainbridge Island Historical Museum City of Bainbridge Island 2016 Lodging/Tourism Fund Final Report

Activity was to keep museum open for increased hours: seven days per week from 10 a.m. until 4 p.m.

Objective was to enable visitors to the island to see and learn about the unique history of the Island.

A. Objective was achieved. See Summary visitor Statistics attached. The number of visitors from other states and other countries as well as the number of stay over's demonstrate the success.

Measurables as shown in the attached Summary of Visitor Statistics demonstrate the results. The actual visitation totals were just slightly less than 2015, however not significantly and in fact only for Bainbridge Island. Visitors from off Island and Foreign Countries actually increased. The 14,111 visitors contribute significantly to the island economy, both for purchases of goods and services and in hotel/motel taxes.

Although the actual funded amount was not what was originally requested, the museum made up the difference out of operating income.

Methodology was our actual guest register. We request that the guests provide information about where they come from and if they are staying over in paid accommodations.

Please see the attached 2016 Summary Visitor Statistics.

Please advise if we can provide further information.

Henry R. Helm Executive Director

Bainbridge Island Historical Museum
